Amendment of drawing has been acknowledged and overcomes the objection to the drawings.

Amendments of specification overcome the objection to the disclosure.

Allowable Subject Matter

Claims 1-28, & 97-140 are allowed over the prior art of record.

Examiner's Reasons for Allowance

The following is an examiner's statement of reason for allowance:

Regarding amended claim 1, the prior art of record neither shows nor suggests a structure comprising all the claimed limitations set forth in claim 1, particularly comprising a group of light reflective coatings substantially reflective of visible light.

Regarding claim 9, the prior art of record neither shows nor suggests a structure having combination of limitations set forth in claim 9, particularly a group of coatings comprising at least one group IIIB (13) metal, each coating generally conformally overlying on a part of the outer surface of a corresponding different one of the light emissive particles so as to be spaced apart from where that light emissive particle is closest to the plate.

Regarding claim 111, the prior art of record neither shows nor suggests a structure comprising the combination of limitations of claim 111, particularly comprising a group of reflecting coatings consisting largely of non-oxidized metal, conformally overlying on a part of the outer surface of a corresponding different one of the light

Art Unit: 2879

emissive particle so as to be spaced apart from where that light emissive particle is closed to the plate

Regarding claims 13, 15, 17, & 127, the prior art of record neither shows nor suggests a structure having combination of limitations set forth in claims 13, 15, 17, & 127 and particularly the limitation of a group of coatings comprising at least one of claimed group of metals in claims 13, 15 and 17, each coating generally conformally overlying on a part of the outer surface of a corresponding different one of the light emissive particles so as to be spaced apart from where that light emissive particle is closest to the plate.

Regarding claims 21 & 133, the prior art of record fails to teach or suggest a structure having combination of limitations set forth in claim 21, particularly including a group of getter coatings each generally conformally overlying on a part of the outer surface of a corresponding one of the light emissive particle so as to be spaced apart from where that light emissive particle is closed to the plate.

Claims 2-8, & 10-12, 14, 16, 18-20, 22-28, 97-110, 112-18,120-126, 128-132, and 134-140 are allowed being dependent on allowed base claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
